ALEX V. NUNEZ

Software Developer in Newark, NJ

ABOUT ME

My Name is Alex V. Nunez. I am a Software Developer in Newark, NJ., and I am currently majoring in Software Development Technology at Essex County College. I start learning code since I was in High School which is why I decided to go to the technology world.

I love building things and learn as much as I can. I found it very interesting to apply what we learn in class to solve real-world problems. I am interested in new technologies like artificial intelligence and automation. I think these technologies will change the future.
